

Tehachapi Transfer Station

BREA, Calif. – [JRMA \(J.R. Miller & Associates, Inc.\)](#) is teamed with Golder Associates, Inc. to design a new transfer station building at the Tehachapi Landfill in Kern County, CA. The project includes a 300 ton per day (TPD) transfer station with a transfer tunnel for top loading, loading dock for recovered goods, public drop-off area, and a modular administration building.

JRMA is providing architectural and structural design services, while coordinating the mechanical, electrical, and plumbing designs with Golder. The project is for Kern County Public Works Department.
