### **J.R. Miller & Associates Awarded On-Call Architectural and Engineering Services for the Metro Solid Waste Transfer Stations, Category I**

**Portland, OR (November 8, 2021)** JRMA (J. R. Miller & Associates), a leading architectural and engineering firm specializing in the design of solid waste recycling and transfer stations, materials recovery facilities (MRFs), and anaerobic digestion/biogas plants (AD), is pleased to announce that they have been awarded the On-Call Architectural and Engineering by Metro in Portland, Oregon at the Metro Solid Waste Transfer Stations.

JRMA will complete various on-call work in all of Metro's transfer stations. The nature of on-call contracts requires consultants to be responsive, flexible, and available to perform a wide range of professional tasks. Under this contract, Metro staff may call JRMA for consultant services as needed, to assist staff in planning, conceptual design, preliminary design, final design, and emergency repairs. Work assignments may occur at any time during the life of the contract and the nature of the work required may vary.

#### **About JRMA**

[JRMA Architects & Engineers](#) (J. R. Miller & Associates), is an architecture and engineering design firm headquartered in Brea, CA offering comprehensive services to solid waste, AD, aviation, industrial and food processing clients throughout the United States and abroad. For nearly forty years, JRMA has built a reputation for designing facilities that are cost-effective, achieve operational excellence, and reflect sustainable design features. With over 60 employees, JRMA has offices in Portland, OR; San Carlos, CA; Houston, TX; and Lexington, KY.
